### WANTED...

Looking for some original hard wood flooring for my older home. If you have some extra pieces or you have changed your flooring and want to sell some of the wood contact me at **403-304-9174**.

### YOUR HELP NEEDED...

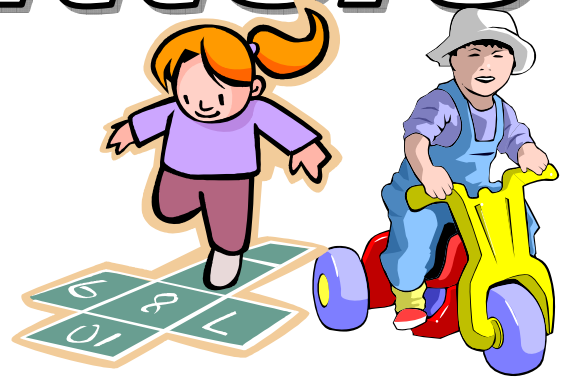

I have talked with Bell over the last 2 years and they have told me they need people to call that are having dropped calls and low signal bars or no service in their house on the mobile phones. This seems to be a big problem on Tamarac Blvd. Bell seems to think everything is fine, they are only willing to look into this problem if they have enough complaints. Bell has given me a number for others to call and voice their concerns.

**Bell mobility's number for tech support 1-877-328-2123**

Thanks you for helping us /all.
